

NECTAR NEXUS
OVERSEAS
From Farm To Global Market

ABOUT NECTAR NEXUS OVERSEAS

From Our Farms to the World's Finest Tables

Nectar Nexus Overseas is a premium exporter and processor of fresh fruits from India, delivering exceptional quality from farm to global markets.

Founded by an M.Sc. Food Technologist, the company follows strict scientific standards in harvesting, processing, and packaging to ensure superior quality and freshness.

With our own mango farms, we maintain complete control over cultivation and post-harvest handling, guaranteeing premium fruits for international markets.

India is home to some of the world's finest mangoes, and we proudly supply **Alphonso** and **Kesar** mangoes, widely recognized among the best mango varieties in the world for their rich flavor, aroma, and sweetness.

Mango

Introduction

India is home to some of the world's finest mangoes, celebrated for their rich sweetness, vibrant color, and irresistible aroma. Premium varieties such as Alphonso and Kesar are globally admired for their smooth texture and exceptional flavor.

Cultivated in fertile orchards and carefully harvested at peak maturity, these mangoes deliver the perfect balance of taste, nutrition, and freshness.

At Nectar Nexus Overseas, we ensure every mango is handled with strict quality standards, bringing the authentic taste of India's finest mangoes to global markets.

Our Premium Mango Varieties

KESAR

Rich saffron color and sweet flavor

ALPHONSO

Known as the King of Mangoes

DASHERI

Naturally sweet with smooth pulp

LANGRA

Unique tangy-sweet taste.

TOTAPURI

Mildly sweet with a refreshing tangy flavor

RAJAPURI

Large size mango with rich aroma and flavor

Mango Handling

- Approved phytosanitary treatment
- Eliminates fruit fly larvae and pests
- Maintains fruit quality and freshness
- Required for export to Japan and some regulated markets

- Mangoes immersed in 46–48°C hot water
- Eliminates fruit fly and fungal pathogens
- Chemical-free post-harvest treatment
- Ensures export phytosanitary compliance

- Uses ionizing radiation technology
- Eliminates quarantine pests and larvae
- Approved for export to USA & Australia
- Maintains fruit safety and quality

Export Packing

Our mangoes are packed using **high-quality export-grade corrugated cartons** designed to protect fruit quality during international transportation. Each mango is carefully placed in **protective foam nets** to prevent damage and maintain freshness.

Our packaging process ensures that mangoes arrive in global markets in excellent condition and premium quality.

Each export carton is labeled according to **international import requirements**, ensuring full traceability and compliance with global food safety standards.

Packaging Type	Net Weight
Corrugated Export Carton	3 & 3.5 Kg (9 Count)
Corrugated Export Carton	4 & 4.5 kg (10-12 Count)
Corrugated Export Carton	5 kg (14 -15 Count)

• Packaging Features

- Food-grade corrugated cartons
- Protective foam net wrapping
- Ventilated cartons for airflow
- Export labeling and traceability

***Custom box size & design available as per your requirements.**

Cold Chain & Export Logistics

- **Export Compliance & Certification**

To meet international import regulations, all mango shipments are handled in accordance with plant quarantine and **food safety requirements**.

- **Phytosanitary Certificate**
- **FDA Prior Notice**
- **HWT or VHT Certificate**
- **Food Safety Compliance (FSSAI)**
- **Proper Export Labeling**
- **Country of origin**
